How Legal4Sure works.
3 stages. 7 services. Nothing hidden.

This is exactly how we take your factory through a SEDEX SMETA audit – what we do, what you receive and what we need from you at every stage.

3	7	1	6000+
clear stages	services, one scope	team end to end	Indian factories completed

01 THE PROCESS AT A GLANCE

Read left to right

Before the audit — STAGE 1

- 01 Documentation Preparation
- 02 Facility Preparation for Audit
- 03 Trainings & Implementations
- 04 SEDEX SAQ Completions
- 05 SEDEX Portal Handling & SAQ Finalisations

During — STAGE 2

- 06 Audit Clearance

The audit day, with us beside you.

After — STAGE 3

- 07 CAPA Closure

Every gap closed out.

02 HOW WE KEEP IT TRANSPARENT

1

Every service listed upfront

All 7 services and their outputs are written down before we start.

2

Clear who does what

Our work and your team's work are separated – no surprises.

3

You always know the stage

Before, during or after the audit – you can see where you are.

4

One point of contact

One team from gap analysis to CAPA closure.

01 Before the audit

Most of the work happens here. We get your documents, facility, team and SEDEX portal ready.

03 STAGE 1 SERVICES — 5 services

SERVICE	WHAT LEGAL4SURE DOES	WHAT YOU GET	WHAT WE NEED FROM YOU
01 **Documentation Preparation**	• Prepare SOPs, checklists, manuals and policies for your factory • Align every document to SEDEX requirements	• **Ready-to-use SOPs, checklists, manuals and policies** • **68-item SEDEX audit checklist**	• Existing licences, registrations and records • Basic company and process details
02 **Facility Preparation for Audit**	• Walk your facility and mark what is missing • Guide set-up of fire safety, signage, displays and boxes	• **List of gaps on the shop floor** • **38-item SEDEX purchasing guide**	• Access to the facility • Purchase and install the missing items
03 **Trainings & Implementations**	• Train your team on SEDEX and ETI requirements • Help put the systems into daily practice	• **Trained team and training records** • **Systems working on the floor, not just on paper**	• Staff available for training sessions • A Team Leader to own implementation
04 **SEDEX SAQ Completions**	• Support SEDEX registration as Member B or AB • Complete the Self-Assessment Questionnaire (SAQ) with you	• **A completed SAQ on the SEDEX platform**	• Company information for the SAQ • SEDEX number from your buyer (Member A)
05 **SEDEX Portal Handling & SAQ Finalisations**	• Manage the SEDEX portal on your behalf • Review and finalise the SAQ before the audit	• **A finalised SAQ and portal ready for the audit**	• Portal access details • Quick approvals when we ask

02 During the audit

The certification body audits your factory. We make sure you are ready for it.

04 STAGE 2 SERVICE

1 service

SERVICE	WHAT LEGAL4SURE DOES	WHAT YOU GET	WHAT WE NEED FROM YOU
06 **Audit Clearance**	• Prepare your team for the audit day • Support you through the SMETA audit with the certification body	• **Confidence on audit day** • **Clear view of any non-conformances raised**	• Audit date and certification body details • Key staff present on audit day

03 After the audit

Any gaps found are closed properly, so the audit is cleared.

05 STAGE 3 SERVICE

1 service

SERVICE	WHAT LEGAL4SURE DOES	WHAT YOU GET	WHAT WE NEED FROM YOU
07 **CAPA Closure**	• Plan corrective and preventive actions for each non-conformance • Prepare and submit closure evidence	• **All non-conformances closed out** • **Audit cleared on the SEDEX platform**	• Action on agreed corrections • Photos and documents as evidence

06 HOW NON-CONFORMANCES ARE CLOSED

Desktop closure

Closed remotely by sending the document or photo evidence to the auditor.

Follow-up closure

The auditor may return for a follow-up visit to verify the correction on site.

Who does what.
Clear roles. No surprises.

A simple split of responsibilities, so your team knows exactly where its effort goes.

07 RESPONSIBILITY SPLIT

● leads ○ supports

TASK	LEGAL4SURE	YOUR TEAM
Documentation – SOPs, manuals, policies	●	○
Facility gap list	●	○
Buying & installing missing items	○	●
Training sessions	●	○
Daily implementation on the floor	○	●
SEDEX registration & SAQ	●	○
Portal handling & SAQ finalisation	●	○
Audit day preparation	●	●
Corrective actions on the floor	○	●
CAPA evidence & closure	●	○

Start with a gap analysis.

Share your factory details, buyer and target audit date. We will tell you exactly what to prepare.
