items to prepare	desktop items	follow-up items	of employee records

01 HOW TO USE THIS CHECKLIST

1
Legal Licences & Registrations
The company's legal base. The auditor checks these first.
15 items · 11 D · 4 F

2
Employee Records
Proof that wages, hours, leave and benefits follow the law – for every month of the past year.
14 items · 0 D · 14 F

3
Health, Safety & Testing
Training, medical and lab evidence that the workplace is safe.
10 items · 10 D · 0 F

4
Records, Registers & Lists
Supplier, feedback and inventory records kept up to date.
12 items · 10 D · 2 F

5
Management Systems & Committees
Reviews, risk assessments and worker committees that keep compliance running.
9 items · 9 D · 0 F

6
Facility Walk-through & Displays
What the auditor will see while walking the factory.
8 items · 5 D · 3 F

Desktop item Follow-up item Each block is one item in the checklist

02 DESKTOP VS FOLLOW-UP – WHAT IT MEANS

Desktop
If this item is missing at audit, the non-conformance can usually be closed remotely by sending the document or photo evidence to the auditor.

Follow-up
If this item is missing at audit, the auditor may need to return for a follow-up visit to verify it on site. Give these items priority.

03 STEP 1 · LEGAL LICENCES & REGISTRATIONS

15 items · 11 desktop · 4 follow-up

The company's legal base. The auditor checks these first.

NO.	DOCUMENT / REQUIREMENT	TYPE	✓
